Background

I have worked in the electronics industry for more than 35 years, first for **Texas Instruments**, then 27 years in **IBM**; latterly as an independent consultant running my own company, **Compliance Europe Ltd** and with **Hursley EMC Services**

As Chairman of the **EMC Notified Bodies** (ECANB) I was a member of the SLIM Working Group responsible for the revision of the EMC Directive now published as 2004/108 and also editor of the group that produced the Guidelines to the new directive. I also represent them on the EU Commission EMC Working Party

In the UK, I am responsible for the operation of the **EMC Test Laboratory Association** (EMCTLA) which coordinates the technical activities of the EMC test labs.

I am also on the BSi EMC Committees GEL210, 210/11 and 210/12 as well as convener of CENELEC WG(9) responsible for the EMC guide for testing military equipment.
